Devang Deokule

Mumbai, India | deokuledevang@gmail.com | +91 7039969768 | LinkedIn: Devang Deokule | GitHub: Devang-Deokule

CAREER OBJECTIVE

Software Development Engineer seeking an opportunity to apply strong skills in MERN, Java, Python, and software design to build efficient, reliable, and scalable systems. Eager to contribute to innovative projects, enhance user experience, and grow within a collaborative development environment.

SKILLS

Programming: Java, JavaScript, Kotlin, Python, SQL, PHP
Frameworks: React.js, Node.js, Express.js, Spring Boot, TensorFlow, PyTorch, OpenCV, MediaPipe
Databases / Tools: MongoDB, MySQL, Git, GitHub, Postman, REST APIs, Docker, Firebase, AWS, Machine Learning

EDUCATION

Terna Engineering College — Nerul, Navi Mumbai
B.E in INFORMATION TECHNOLOGY — *Pursuing | May 2027*
Vivekanand Education Society's Polytechnic — Chembur, Mumbai
Diploma in COMPUTER ENGINEERING — *83.71% | May 2024*

EXPERIENCE

AY Techinsight Private Limited — Remote
Backend Developer Intern (Web, Mobile, PWA) — *Dec 2025 – Present*

- Worked on web and PWA projects using MERN and Next.js.
- Built and integrated REST APIs, authentication, and database logic.
- Also contributed to frontend development and bug fixing in a team setup.

Mobond Software Consultancy — Belapur, Navi Mumbai
Software Development Engineer Intern — *June 2023 – July 2023*

- Built the VESP Android app solving student and faculty's pain points using Kotlin and Firebase.
- Integrated real-time data sync, notifications, and digital ID cards for students and staff.
- Implemented secure authentication and academic workflows with Firebase Cloud Messaging.

PROJECTS

Shree Pest Control Services Website (Freelance) (https://github.com/Devang-Deokule/ShreePestControlServices) — *August - November 2025*

- Built the backend for a responsive pest control service website using Node.js, Express.js, and MongoDB, implementing secure and scalable RESTful APIs for client inquiries and service bookings.

Signify (https://github.com/Devang-Deokule/Signify) — *June 2025*

- Built a real-time Sign Language Detection System that converts hand gestures into text and speech using computer vision and a custom ML model.

VESP Application (https://github.com/Devang-Deokule/VES_Polytechnic) — *June 2023 – March 2024*

- Developed a robust Android application to digitize college operations, enabling real-time attendance tracking, academic calendar updates, fee management, result viewing, and digital ID access.

ACTIVITIES AND ACHIEVEMENTS

Research Paper - International Journal of Research Publication and Reviews (IJRPR) — Chembur, Mumbai
Co Authored - VESP: The Ultimate College Companion App. (https://ijrpr.com/uploads/V5ISSUE2/IJRPR22653.pdf) — *February 2024*

Vivek Technotronix - Vivekanand Education Society's Polytechnic — Chembur, Mumbai
Second Place in College level project competition — *March 2024*

CodeByte Hackathon - Lokmanya Tilak College of Engineering — Koparkhairane, Navi Mumbai
Team Leader - Qualified among 100+ teams and Reached finals among 30 teams. — *March 2025*

Pixel Palettes Hackathon - Manipal University — Jaipur, Rajasthan
Team Member - Qualified and Reached Finals among 800 teams. — *June 2025*

Code Storm Hackathon 2025 - DIT University — Mussoorie, Uttarakhand
Team Member- Qualified among 100+ teams and Reached finals among 30 teams. — *June 2025*

Codeissance - Thadomal Shahani Engineering College — Bandra, Mumbai
Team Leader - Qualified and reached finals among 450+ teams. — *September 2025*
